**GALLUP POLL SOCIAL SERIES:
VALUES AND BELIEFS**

-- FINAL TOPLINE --

Timberline: 937008
JT: 203
Princeton Job #: 18-05-005

Jeff Jones, Lydia Saad
May 1-10, 2018

Results are based on telephone interviews conducted May 1-10, 2018 with a random sample of –1,024—adults, ages 18+, living in all 50 U.S. states and the District of Columbia. For results based on this sample of national adults, the margin of sampling error is ± 4 percentage points at the 95% confidence level.

For results based on the sample of –542—national adults in Form A, the margin of sampling error is ± 5 percentage points.

For results based on the sample of –482—national adults in Form B, the margins of sampling error is ± 5 percentage points.

Interviews are conducted with respondents on landline telephones and cellular phones, with interviews conducted in Spanish for respondents who are primarily Spanish-speaking. Each sample of national adults includes a minimum quota of 70% cell phone respondents and 30% landline respondents, with additional minimum quotas by time zone within region. Landline and cell phone telephone numbers are selected using random digit dial methods. Gallup obtained sample for this study from Survey Sampling International. Landline respondents are chosen at random within each household on the basis of which member has the next birthday.

Samples are weighted to correct for unequal selection probability, non-response, and double coverage of landline and cell users in the two sampling frames. They are also weighted to match the national demographics of gender, age, race, Hispanic ethnicity, education, region, population density, and phone status (cell phone-only/landline only/both and cell phone mostly). Demographic weighting targets are based on the March 2017 Current Population Survey figures for the aged 18 and older U.S. population. Phone status targets are based on the January-June 2017 National Health Interview Survey. Population density targets are based on the 2010 census. All reported margins of sampling error include the computed design effects for weighting.

In addition to sampling error, question wording and practical difficulties in conducting surveys can introduce error or bias into the findings of public opinion polls. For questions about how this survey was conducted, please contact galluphelp@gallup.com.

22. Next, I'm going to read you a list of issues. Regardless of whether or not you think it should be legal, for each one, please tell me whether you personally believe that in general it is morally acceptable or morally wrong. How about -- [RANDOM ORDER]?

<i>2018 May 1-10</i> <i>(sorted by "morally acceptable")</i>	Morally acceptable	Morally wrong
Birth control	91	6
Drinking alcohol ^	78	19
Divorce	76	20
Sex between an unmarried man and woman	69	28
Gambling	69	28
Gay or lesbian relations	67	30
Medical research using stem cells obtained from human embryos	66	29
Smoking marijuana †	65	31
Having a baby outside of marriage	65	32
The death penalty	62	33
Buying and wearing clothing made of animal fur	60	37
Medical testing on animals	54	43
Doctor assisted suicide	54	42
Abortion	43	48
Pornography	43	55
Sex between teenagers	42	54
Cloning animals	40	51
Suicide	20	75
Polygamy, when a married person has more than one spouse at the same time	19	78
Cloning humans	16	81
Married men and women having an affair	10	88

^ Asked of –542—national adults in Form A

† Asked of – 482 – national adults in Form B
